HEALTH SCORE

Based on 58 of 58 scored checks.

25 pages checked

6 problems · 1 need review · 0 not checked

Summary

Health score by category. Categories that don't apply to this site are excluded.

Category		Score	Checks run
SEO		100	17 of 17 checks run
Performance		67	9 of 9 checks run
Accessibility		97	12 of 12 checks run
Contact and conversion		96	8 of 8 checks run
Content		100	4 of 4 checks run
Security		88	8 of 8 checks run
Local SEO	Not applicable	—	

◆ **6** problems △ **1** need review ◌ **0** not checked

Top issues

Highest-priority problems, with evidence and how to fix each one.

Main content appears slowly (lab)

HIGH

Problem · Performance · on 1 page · included in score

People leave pages that take a long time to show their main content, particularly on mobile.

Page	https://www.futurebuiltdigital.com/
Device	mobile
Largest content shown (ms, lab)	3,795
Threshold	2,500

How to fix. Inspect the LCP element and prioritize server response, render blocking, image loading, and delivery delays shown in the trace.

Text is hard to read against its background

MEDIUM

Problem · Accessibility · 81 instances on 8 pages · included in score

Low contrast makes text hard to read for many people, especially on phones outdoors.

Page	https://www.futurebuiltdigital.com/solutions/ai-receptionist
Elements	li:nth-child(2) > .opacity-40.grid-cols-\[4\.5rem_minmax\(0\, 1fr\)\].text-left > .text-mono-sm.font-mono
Accessibility rule	color-contrast
Contrast ratio	2.19
Page	https://www.futurebuiltdigital.com/solutions/ai-receptionist
Elements	li:nth-child(2) > .opacity-40.grid-cols-\[4\.5rem_minmax\(0\, 1fr\)\].text-left > .min-w-0 > .block
Accessibility rule	color-contrast
Contrast ratio	2.19
Page	https://www.futurebuiltdigital.com/solutions/ai-receptionist
Elements	li:nth-child(3) > .opacity-40.grid-cols-\[4\.5rem_minmax\(0\, 1fr\)\].text-left > .text-accent-label.text-mono-sm.font-mono
Accessibility rule	color-contrast
Contrast ratio	2.19

and 97 more

How to fix. Adjust text and background colors to meet the applicable contrast requirement.

Images are much larger than shown

MEDIUM

Problem · Performance · on 1 page · included in score

Downloading a large image to show it small wastes time on every visit.

Page	https://www.futurebuiltdigital.com/
Image	https://www.futurebuiltdigital.com/_next/image?url=%2Fwork%2Fcropped%2Fvarilead%2Fvarilead-lead-workstation.webp&w=750&q=75
Shown at	489x416
File size (pixels)	750x637
Possible saving (bytes)	18,299

How to fix. Deliver an appropriately sized responsive image and verify the actual saving.

Page is busy and slow to respond (lab)

MEDIUM

Problem · Performance · on 1 page · included in score

While scripts block the page, taps and scrolling feel stuck.

Page	https://www.futurebuiltdigital.com/
Device	mobile
Blocked time (ms, lab)	11,734
Threshold	200

How to fix. Reduce, defer, or split expensive JavaScript tasks identified in the Lighthouse main-thread trace.

Files can be misinterpreted by browsers

LOW

Problem · Security · 13 instances on 1 page · included in score

The nosniff header stops browsers from treating a file as a different type, a known source of attacks.

Page	https://www.futurebuiltdigital.com/
File type	text/html; charset=utf-8
Headers	
Page	https://www.futurebuiltdigital.com/_next/static/immutable/chunks/3-1qtxc_63mzu.css
File type	text/css; charset=utf-8
Headers	
Page	https://www.futurebuiltdigital.com/_next/static/immutable/chunks/2flnng_5i3zpw.css
File type	text/css; charset=utf-8
Headers	

and 10 more

How to fix. Set X-Content-Type-Options: nosniff on relevant responses.

Phone number can't be tapped

LOW

Problem · Contact and conversion · on 1 page · included in score

On a phone, visitors expect to tap a number to call; copying it by hand loses some of them.

Page	https://www.futurebuiltdigital.com/solutions/ai-receptionist
Text	(312) 555-0148
Element	ol > li:nth-of-type(1) > div:nth-of-type(1) > ul > li:nth-of-type(2)

How to fix. Make the published mobile phone number a working tel: link.

All problems by category

Performance

- **Main content appears slowly (lab)** — HIGH

  Problem · Performance · on 1 page · included in score

- **Images are much larger than shown** — MEDIUM

  Problem · Performance · on 1 page · included in score

- **Page is busy and slow to respond (lab)** — MEDIUM

  Problem · Performance · on 1 page · included in score

Accessibility

- **Text is hard to read against its background** — MEDIUM

  Problem · Accessibility · 81 instances on 8 pages · included in score

Security

- **Files can be misinterpreted by browsers** — LOW

  Problem · Security · 13 instances on 1 page · included in score

Contact and conversion

- **Phone number can't be tapped** — LOW

  Problem · Contact and conversion · on 1 page · included in score

Needs review

Likely issues that a person should confirm. Not included in the score.

⚠ No Content Security Policy

LOW

Needs review · Security · on 1 page

A policy limits which scripts can run, which reduces the damage if something malicious gets onto the page. A hardening step, not a found vulnerability.

How to fix. Introduce a carefully tested Content Security Policy appropriate to site resources.

Confirm before acting.

Next steps

Fix these three issues first.

1 **Main content appears slowly (lab)**
Inspect the LCP element and prioritize server response, render blocking, image loading, and delivery delays shown in the trace.

2 **Text is hard to read against its background**
Adjust text and background colors to meet the applicable contrast requirement.

3 **Images are much larger than shown**
Deliver an appropriately sized responsive image and verify the actual saving.

All checks

Every check in this audit and its result. 72 checks: 58 passed, 6 problems, 2 need review, 6 not applicable, 0 not checked.

This does not look like a local business website.

– Address is consistent across pages — Not applicable
No published address was found in a reliable form.

– Phone number is consistent across pages — Not applicable
No phone link appears in the site header or footer.

✓ Business name is clearly shown — Passed
Site-wide

– LocalBusiness structured data — Not applicable
This does not look like a local business website.

Methodology

Rule set version 1.0.0. The health score includes only checks that ran on the first 25 pages audited, weighted by category (scoring weights-1.0.0+page-importance-1.0.0#ecd63e4d39c3). Speed results are lab measurements on a simulated phone (median of three runs), not real-user data. "Needs review" items should be confirmed by a person. This report is not legal advice or a search ranking assessment.
